

Performance Coatings Center

A Miller Paint
Company Affiliate

2/8/2010

Miller Paint is advancing its standing in the light-industrial and high-performance paint industry with the opening of the Performance Coatings Center at 121 NE Weidler in Portland, Oregon. Formerly an ICI/Dulux location, the Performance Coatings Center will carry the same coating products as the ICI/Dulux store such as Devoe High Performance Coatings and Glidden Professional. In addition, the Performance Coatings Center will also have coatings available from the PPG High Performance line, STO, Burke Industrial Coatings, ITW Resin, PolySpec, RUDD and Valspar, just to name a few.

“The new Performance Coatings Center is a step forward in Miller Paint’s commitment to the commercial and light-industrial coatings market” says Steve Dearborn, President of Miller Paint Company.

The Performance Coatings Center is the result of the recent acquisition by Miller Paint of 2 ICI/Dulux locations in Oregon. The other location that was acquired is in Salem, Oregon.

The Salem ICI/Dulux location’s business, inventory, and 2 of its employees have been consolidated into the Salem Miller Paint location which is now servicing all of the former ICI/Dulux customers. The Salem Miller Paint location and its newly expanded inventory can be found at 390 Lancaster Drive NE.

“Customers that used to buy at the ICI/Dulux location have been very happy to be able to get all of the same products at our Salem Miller Paint store, and we are very happy to have them coming through our doors” says Scott Riley, Regional Manager for Miller Paint Company.

Both the new location and expanded product offering will be a great asset to Miller Paint as a whole as it gives Miller Paint the ability to service commercial and light-industrial customers even better than it did before.
