I am an independent interior designer and owner of a small business in Portland Oregon. Interior Design and furnishings are my passion. My love for this industry started as a little girl furnishing my Barbie dream homes. It grew when I went to school and studied the history of furniture and design. I love how the past has so much to do with the present and future of design. I enjoy bringing my knowledge of these things and more to your personal and business spaces.

I hold an Interior Design degree as well as certificates specializing in interior furnishings, kitchen, and bath design.

I enjoy searching for the perfect elements to tie a space together, the cherry on top!
