

# **ACRINAMEL®** MULTIPURPOSE ACRYLIC ENAMEL

A top quality, multipurpose acrylic enamel ideal for exterior/interior projects. Acrinamel provides an exceptionally durable finish for exterior and interior surfaces that require a moisture resistant, washable coating. Ideal for exterior metal and fine wood, as well as interior wood, masonry, and metal surfaces. Its durable, moisture-resistant film provides the performance of an enamel finish with the benefits of a water clean up and low odor.

- High quality 100% acrylic enamel
- Excellent color and sheen retention
- Excellent resistance to moisture
- Soap and water clean up

#### EGGSHELL

Ideal for projects where a deep, rich look is desired yet only a minimal sheen is needed. Also applicable for commercial or residential projects that require minimal washability such as conference rooms, living rooms, or bedrooms.

#### SATIN

This finish will minimize dirt pick-up and is washable. With the hard finish of an enamel, a satin finish can also be used on interior walls where a strong, durable moisture resistant surface is needed. Best used when the surface is free of major imperfections. Use in applications such as interior primed smooth or rough walls, exterior or interior finish grade wood trim, or primed metal surfaces.

#### SEMIGLOSS

This high-sheen product is very washable and perfect for areas that are more susceptible to dirt, grease, and moisture. Use in applications such as institutional walls, trim, and wet areas, exterior or interior doors, exterior or interior finish grade wood trim, or primed metal surfaces.
